

KAMMINENI VENKATA MANASA

Data Analyst

+91-6305544654 | kvenkatamanasa@gmail.com | linkedin.com/in/kamminenivenkatamanasa | github.com/kvenkatamanasa

Summary

Computer Science Engineering student with strong knowledge of SQL, Python, Power BI, Microsoft Excel, Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Development, KPI Reporting and Business Intelligence. Experienced in transforming raw datasets into meaningful business insights through data analysis and visualization. Passionate about solving business problems using analytical thinking and data-driven decision making.

Technical Skills

Programming Languages: Python, C

Core CS Concepts: Data Structures, Object-Oriented Programming (OOP) in Python, DBMS

Data & Analytics: SQL, MySQL, Power BI, MS Excel, Tableau

Machine Learning & Data Analysis: Machine Learning, NumPy, Pandas, Seaborn, Matplotlib

Web Technologies: HTML, CSS, Bootstrap, WordPress

Tools & Platforms: Git, GitHub, Microsoft Office

AI Fundamentals: Prompt Engineering, Generative AI Tools

Projects

Sales Analytics Dashboard | *Power BI, SQL, Excel*

2025

- Cleaned, transformed, and analyzed more than 10,000 sales records using SQL and Power Query.
- Designed interactive Power BI dashboards using KPI cards, slicers, drill-through reports, and DAX measures.
- Analyzed sales performance, regional trends, customer behavior, and product profitability to support business decisions.
- Built automated dashboards that reduced manual reporting effort and improved reporting efficiency.

Customer Churn Analysis | *Python, Pandas, NumPy, Matplotlib*

2025

- Performed Exploratory Data Analysis (EDA) on customer datasets using Python and Pandas.
- Cleaned datasets by handling missing values, duplicate records, and outliers.
- Created visualizations to identify churn patterns using Matplotlib and Seaborn.
- Generated business insights to improve customer retention strategies.

Experience

Web Development Intern

April 2025 – May 2025

Cognifyz Technologies (Remote)

Tools Used: HTML, CSS, Bootstrap, WordPress

- Developed and updated responsive web pages using HTML, CSS, Bootstrap and WordPress, ensuring cross-browser compatibility.
- Maintained website content and improved usability through targeted UI enhancements.
- Collaborated with remote developers using Git and GitHub for version control and project management.
- Applied analytical problem-solving and debugging skills to complete assigned tasks within deadlines.

Certifications

- Data Analytics Job Simulation – Deloitte (Forage)
- Data Analysis with Python – IBM Cognitive Class
- Cyber Job Simulation – Deloitte (Forage)
- Power BI Workshop – OfficeMaster
- Introduction to Prompt Engineering – IBM (edX)

Education

B.Tech. Computer Science and Engineering

Expected Graduation: 2027

Sri Venkateswara College of Engineering and Technology, Chittoor

CGPA: 8.66 / 10
